Women in Fund Finance

OUR VISION:

The vision of Women in Fund Finance is that the increased engagement and participation of women in the Fund Finance ("FF") industry encourages better leadership, decision-making and performance for the FF community. Ultimately, greater diversity in the FF industry will provide for enhanced performance for funds, financiers and their advisors and will provide for a more complete voice in advocating the overall mission of the Fund Finance Association.

OUR MISSION:

Our mission is the increased engagement, recognition and promotion of women leaders within the FF Industry. Women in Fund Finance seeks to help women succeed in three ways:

Connection

Connecting with women interested in and already part of the FF community at a variety of events and activities sponsored by Women in Fund Finance including annual events in connection with the FFA Symposiums.

Education

Creating a forum in which women may learn about FF and our industry, share expertise, experience and challenges and recognize and celebrate successes. Through such forum, we aim to help women develop enhanced skills and gain market knowledge that will empower them to enter into our industry, succeed and advance in their careers. Additionally, we will educate and engage other stakeholders in FF, including male colleagues, with respect to the benefits of diversity in the FF industry.

Professional Leverage/Advocacy

Ultimately, we hope to identify opportunities and provide sponsors and advocates for women in order to retain women in FF and permit them to advance in their careers. A particular emphasis would be on increasing opportunities for executive and board level positions.

ABOUT US

The Fund Finance Association (FFA) is a non-profit industry association in the fund finance market, co-located in New York, New York and Charlotte, North Carolina.

Our core mission is to:

- Educate members, legislators, regulators, and other constituencies about the fund finance market and related capital markets through conferences and other events.
- Build the broadest consensus among members on policy, legal, regulatory and other matters affecting or potentially affecting the fund finance market and related capital markets.
- Advocate on behalf of the fund finance industry with respect to policy, legal, regulatory and other matters affecting or potentially affecting the fund finance market and related capital markets.

The Annual Global, European, and Asia-Pacific Fund Finance Symposiums are the premier Fund Finance events.

The FFA sought out experts in the subscription credit facility and fund finance space to address many of the key developments and trends in the market. The organization is comprised of a committee of well-respected Banking and Finance professionals who specialize in fund finance. The conference was made possible due to the dedication of this group.
